

„Website“

Danced by: Mina Roziadi, Sayang Ropp, Annalena Schneider,
Dhoani Berraquero, Cheyenne Ziermann, Amber Needham,
Blaze Needham

This term we are focusing on space and how to use it. In this new piece we have been adventurous. Let us surprise you!

The idea “website” has to do with spiders and their victims.

A competition of the female spiders is re enacted through partnering- a form of contact improvisation. The prize is the male dancer....

The audience is the victim of the website.

This Dance group trains daily in the mornings. All together they take ten Dance classes a week. Most of them are interested in enrolling in a Dance school. Sayang, Cheyenne and Amber are auditioning this year. So cross your fingers for them.

Those three have been profiting from these morning classes for a year already. They learn about Dance techniques, Contact Improvisation, Partnering, Contemporary Dance, Dance theatre (with DaniEla), and now, next week they will start with Ballet classes. We’ve found a teacher who will come up and teach them once a week. They have all done some before, but need more lessons.

Come and see us 27th&28th November.
